

# NURSING M.S.N. WITH A PSYCHIATRIC MENTAL HEALTH PRACTITIONER SPECIALIZATION

## Program Learning Outcomes

1. Demonstrate advanced performance in clinical practice and critical thinking as an advanced practice psychiatric mental health nurse practitioner through a faith-based perspective.
2. Implement and evaluate safe and effective interventions that provide person-centered care in the early identification and prevention of psychiatric illnesses and improved mental health using psychopharmacologic and nonpharmacologic strategies and modalities based on a holistic approach.
3. Integrate and critically appraise research evidence to develop clinical practice guidelines, promote diverse treatment strategies, and improve mental health outcomes for diverse populations.
4. Synthesize evidence-based practice, ethical principles, spiritual care, and biopsychosocial theories to optimize health outcomes and manage mental health disorders across the lifespan.
5. Plan, implement, and evaluate health care policies and delivery systems that provide innovative quality care to target the resolution of social issues and concerns related to the mental health of individuals and populations.
6. Exemplify practitioner professionalism through self-care and wellness interventions in areas of personal spirituality, physical and psychological health, work-life balance, life-long learning, and the promotion of healthy work environments.
7. Demonstrate leadership, interprofessional partnerships and collaboration, and culturally competent care to reduce health disparities by advocating recovery principles in individuals and groups that positively impact care delivery and outcomes.
8. Incorporate and employ innovative technologies within various mental health care delivery systems in meeting unique and complex population needs.

## Requirements

| Code     | Title                                                                          | Units |
|----------|--------------------------------------------------------------------------------|-------|
| CNSG-613 | Advanced Health Assessment                                                     | 3     |
| CNSG-618 | Advanced Concepts in Pathophysiology                                           | 3     |
