

NURSING M.S.N.

Program Learning Outcomes

1. Advocate for health policy changes that enhance population health and promote professional nursing practice.
2. Utilize emerging technologies to provide credible health information to clients, nurses, and students.
3. Perform assessments focusing on physical, mental, emotional, and spiritual needs of culturally diverse individuals.
4. Develop curriculum/teaching plan.
5. Support legal and ethical guidelines in all aspects of nursing practice.
6. Develop a thesis project using research, critical thinking, and evidence-based practice principles.
7. Prepare to assume a senior leadership/management position and/or the role of educator in a health care agency or college setting.
8. Integrate faith and lifelong learning in personal and professional life.

Requirements

Note: an undergraduate level statistics course is a required pre-requisite for the MSN program.

Code	Title	Units
