

CRIMINAL JUSTICE B.A. (PROFESSIONAL EDUCATION)

Program Learning Outcomes

1. Understand theories of crime, criminal justice, and reentry, including traditional and contemporary approaches.
2. Use social science methods of data collection to investigate and document issues related to crime and victimization.
3. Understand ways in which race, ethnicity, class, and gender are related to outcomes within criminal justice systems.
4. Contrast theoretical and empirical models of crime prevention and suppression with the criminal justice system's role and function.
5. Integrate a Christian worldview in understandings of crime, victimization, and justice.
