# EARLY CHILDHOOD B.A.

## **Program Learning Outcomes**

**1. Promoting Child Development and Learning:** Students prepared in the Early Childhood Education degree program build a research-based understanding of child development and learning in the context of a Biblical worldview of early education. They use their understanding and knowledge of the young learner's characteristics, needs, and multiple interacting influences on children's development and learning, to create environments that are healthy, respectful, supportive, challenging, and Christ-honoring for each child.

2. Building Family and Community Relationships: Students prepared in the Early Childhood Education degree program understand that successful early childhood education depends upon partnerships with children's families and communities. They know about, understand, and value the importance and complex characteristics of children's families and communities. They use this understanding to create respectful, reciprocal relationships that support and empower parents in their Godgiven role as their child's primary educator, and to involve all families in their child's development and learning. They introduce families to the Church community and other community resources to provide support and spiritual guidance.

3. Observing, Documenting, and Assessing to Support Young Children

and Families. Students prepared in the Early Childhood Education degree program understand that child observation, documentation, and other forms of assessment are central to the practice of all early childhood professionals. They know about and understand the goals, benefits, and uses of assessment. They know about and use systematic observation, documentation, and other effective assessment strategies responsibly, in partnership with families and other professionals, to positively influence the development and learning of every child, uniquely created by God.

4. Using Developmentally Effective Approaches to Connect with Children and Families. Students prepared in the Early Childhood Education degree program understand that teaching and learning with young children is a complex enterprise, and its details vary depending on children's ages, characteristics, and the settings within which teaching and learning occur. They understand and use Christ-honoring relationships and supportive interactions as the foundation for their work with young children and families. They know, understand and use a wide array of developmentally appropriate approaches, instructional strategies, and tools to connect with children and families to promote each child's learning and development from a Biblical worldview, giving evidence of Christ's love for each child and family.

**5. Using Content Knowledge to Build Meaningful Curriculum.** Students prepared in the Early Childhood Education degree program use their knowledge of academic disciplines and learning in the context of a Biblical worldview to design, implement, and evaluate experiences that promote Christ-honoring development and learning for each and every young child, uniquely created by God in His image. Students understand the importance of developmental domains and academic (or content) disciplines in early childhood curriculum. They know the essential concepts, inquiry tools, and structure of content areas, including academic subjects, and can identify resources to deepen their understanding. Students use their own knowledge and other resources

to design, implement, and evaluate meaningful, challenging, and Christhonoring curriculum that promotes comprehensive developmental and learning outcomes for every young child.

**6. Becoming a Professional.** Students prepared in the Early Childhood Education degree program identify and conduct themselves as members of the early childhood education profession. They know and use Biblical principles, ethical guidelines, and other professional standards related to early childhood education practice. They demonstrate Christ-like behavior, honoring young children and the institution of the family. They are continuous, collaborative learners who demonstrate knowledgeable, reflective, and critical perspectives on their work, making informed decisions that integrate knowledge from a variety of sources, in accordance with Biblical principles. They are informed advocates for sound educational practices and policies for the benefit of the children and for the glory of God.

#### **Requirements**

| Code                | Title                   | U                                | Jnits |

#### **Course Sequences**

**Disclaimer**: The courses listed in this sequence are planned, but course offerings are subject to enrollment minimums. This plan is provided as a guide for students to plan courses in either the certificate or BA programs in Early Childhood. Vanguard University requires that students complete a minimum of 120 units of required course work as outlined on the Requirements tab in order to receive a Bachelor of Arts, Bachelor of Music, Bachelor of Science, or Bachelor of Science in Nursing degree. It is the student's responsibility to confirm with the department the course availability and remaining degree requirements before enrolling in courses. If applicable, please note the footnotes at the bottom of the page for additional information related to courses listed in a particular term. Questions, contact the School for Professional Studies.

## **FALL TERM COURSES**

Choose one course from each module (three 5-week courses or two 8-week courses). Students may begin their program in any module.
